**Investments Pending  
Passage of Question 4  
The University Workforce Bond**

- Augusta UMA**  
Deliver better enrollment and support services to UMA's largely adult, career-focused student population, helping to build BSN enrollment to 400 students over five years
- Fort Kent UMFK**  
Advance plans to establish a health science and professional campus that can devote more resources to facilities that support campus and online nursing education
- Machias UMM**  
Renovations and lab upgrades to the Science Building and improvements to support an addition of nursing simulation equipment
- Presque Isle UMPI**  
Rehabilitate and expand nursing and allied health classroom and lab space in two campus buildings
- Lewiston USM**  
Investments in the Lewiston-Auburn community to increase access to nursing education in the region
- Portland USM**  
Double the size of the nursing simulation lab to support 20% growth in BSN program over five years
